Statement of Intent – At Large 2 year term

Please consider this Statement of Intent as my application for one of the two year at large board positions with ISC. If a specific position must be identified, please let me know.

I have been involved with ISC since the time my youngest daughter Grace played micro-soccer as a 5 year old through her current membership on the Gunners U14 Premier Club. I coached Grace's ISC rec teams for 6 years, helped where I could with her Arsenal team and am now a (very) interested parent who is trying to be less of a coach and more of a supportive spectator during her games. Through all of this time, I have remained committed to supporting ISC and its goal of bringing soccer to youth across all levels of play while teaching our kids the finer points of the game. I truly believe that ISC is a valuable asset for the community and look forward to what's next for the club.

Professionally, I have been an attorney with Microsoft for the past 10 years after 12+ years in private practice as a litigator. I have lived in the area for 25 years after moving here to attend law school at the University of Washington.

I would bring a practical, creative and collaborative approach to the ISC board. I enjoy solving interesting/difficult challenges and working to build a better something. I truly believe that ISC can be a first-class club for all families – whether they are looking for competitive high-level soccer or a less intense recreational soccer experience. The pieces are all there.

Thank you for your consideration,

Scott Fletcher
